Contents Volume 143

1 Modeling and design of global logistics systems: A review of integrated strategic and tactical models and design algorithms
M. Goetschalckx, C.J. Vidal and K. Dogan

19 KKT transformation approach for multi-objective multi-level linear programming problems
S. Sinha and S.B. Sinha

32 A slacks-based measure of super-efficiency in data envelopment analysis
K. Tone

42 On the posynomial fractional programming problems
C.-T. Chang

53 A multiperiod degree constrained minimal spanning tree problem
R. Kawatra

64 Minimizing the sum of squares lateness on a single machine
J. Schaller

80 Alternative formulations for a layout problem in the fashion industry
Z. Degraeve, W. Gochet and R. Jans

94 A production planning model for an unreliable production facility: Case of finite horizon and single demand
M. Elhafsi

115 Monolithic vs. hierarchical balancing and scheduling of a flexible assembly line
T. Sawik

125 Long term capacity decisions in uncertain markets for advanced manufacturing systems incorporating scope economies
G. Perrone, M. Amico, G. Lo Nigro and S.N. La Diega

138 Capacity selection under uncertainty with ratio objectives
Y. Gerchak, E. Hassini and S. Ray

148 Preference disaggregation for measuring and analysing customer satisfaction: The MUSA method
E. Grigoroudis and Y. Siskos

171 A buyer–seller game model for selection and negotiation of purchasing bids
S. Talluri

181 Voting power in the European Union enlargement
J.M. Bilbao, J.R. Fernández, N. Jiménez and J.J. López

197 A dynamic analysis of protection and environmental policy in a small trading developing country
A.A. Batabyal and H. Beladi

210 Optimization approach for data allocation in multidisk database
C.-T. Chang

218 Scheduling continuous casting of aluminum using a multiple objective ant colony optimization metaheuristic
M. Gravel, W.L. Price and C. Gagné

PII: S0377-2217(02)00611-2

231 Editorial: IPM 2000. Continuous Optimization
234 A new class of polynomial primal–dual methods for linear and semidefinite optimization
J. Peng, C. Roos and T. Terlaky
257 The Mizuno–Todd–Ye algorithm in a larger neighborhood of the central path
F.A. Potra
268 Analytic centers and repelling inequalities
R.J. Caron, H.J. Greenberg and A.G. Holder
291 Improving complexity of structured convex optimization problems using self-concordant barriers
F. Glineur
311 Analyticity of the central path at the boundary point in semidefinite programming
M. Halická
325 On the finite convergence of successive SDP relaxation methods
M. Kojima and L. Tunçel
342 On approximation of max-vertex-cover
Q. Han, Y. Ye, H. Zhang and J. Zhang
356 A note on lack of strong duality for quadratic problems with orthogonal constraints
H. Wolkowicz
365 On minimization on Stiefel manifolds
T. Rapcsák
377 Factorization of Minty and Stampacchia variational inequality systems
G. Kassay, J. Kolumbán and Z. Páles
390 Linear semi-infinite programming theory: An updated survey
M.A. Goberna and M.A. López
406 Some aspects of studying an optimization or decision problem in different computational models
K. Meer and G.W. Weber
419 PCG-inexact Newton methods for unary optimization
J. Zhang, Y. Xue, P. Zhong and N. Deng
432 Local analysis of a new multipliers method
L.N. Vicente
452 A Riccati-based primal interior point solver for multistage stochastic programming
J. Blomvall and P.O. Lindberg
463 Quality function deployment: A literature review
L.-K. Chan and M.-L. Wu
498 Job-shop scheduling with blocking and no-wait constraints
A. Mascis and D. Pacciarelli
518 The maximum capture problem with random utilities: Problem formulation and algorithms
S. Benati and P. Hansen
531 A generalized class–teacher model for some timetabling problems
A.S. Asratian and D. de Werra
543 Enumeration of Pareto optimal multi-criteria spanning trees – a proof of the incorrectness of Zhou and Gen's proposed algorithm
J.D. Knowles and D.W. Corne
548 The effect of product variety on supply-chain performance
U.W. Thonemann and J.R. Bradley
570 A single-vendor and multiple-buyers production–inventory policy for a deteriorating item
P.C. Yang and H.M. Wee
582 Fair transfer price and inventory holding policies in two-enterprise supply chains
J. Gjerdrum, N. Shah and L.G. Papageorgiou

600 An extension of Banerjee and Rahim's model for economic design of moving average control chart for a continuous flow process
Y.-S. Chen and Y.-M. Yang
611 A model for conjunctive use of ground and surface water with opportunity costs
M.N. Azaiez
625 Separating managerial inefficiency and external conditions in data envelopment analysis
M.A. Muñiz
644 "Some thoughts on the development of integer programming during my research career—lecture delivered upon receiving the EURO Gold Medal, July 9, 2001, Rotterdam" [European Journal of Operational Research 141 (1) (2002) 1–7]
E. Balas
645 Contents Volume 143
648 Acknowledgement Referees
656 Invited Reviews 1998–2002
658 Feature issues 1993–2002
660 Keyword Index Volume 136–143 (2002)
668 Author Index Volume 136–143 (2002)
